More than a simple audio wand.....

| | |
|-----------------------------------|--|
| Size | 13 cm high, 5 cm wide, 3 cm thick |
| Weight | 200 grams |
| Color | Light blue |
| Ergonomic | Equipped with a neck-strap |
| Languages | Limited to 99 languages; fast selection by infrared transmitter or a special key |
| Sound quality | Digital sound quality: MP3 and WMA |
| Memory capacity | 4 hours with the basic memory (CF 64 MB); possible extension up to 4 GB |
| Listening | Through high-quality speakers or via headphones (mono or stereo) |
| Keypad | Backlit, very user-friendly |
| Buttons | Larger, more supple to the touch and have raised and Braille markings |
| Key functions | Play/pause, rewind, forward, cancel, blue key (to listen to second level commentaries) |
| Volume buttons | Lateral control, in a natural-finger position |
| Display | Graphical screen with backlighting |
| Information on the display | Battery-charge level, selected language, state of the alarm, name of the selected visit, number and title of the selected commentary |
| Battery | Li-on type, rechargeable |
| Autonomy | 15 continuous hours on one charge |
| Time for recharge | 3 hours from 0% to 100% |
| Synchronization | Included in the standard Audiopass, by simple infrared detection, it enables the synchronization to one-hundredth of a second of video or slide projections, automatons and lighting |
| Antitheft system | Included in the standard Audiopass, set off by an extremely compact HF transmitter and only requires a simple plug |
| Use statistics | Data is automatically collected by the Audiopass |
| Analyze | <ul style="list-style-type: none"> to know how many times the machine has been used, on which visits and in which languages to know the average length of use of a machine to appreciate the interest of the visitors for the commentaries |
| Charging Rack | Composed of series of 30 plugs mounted on a deck with changeable dimensions. One can thus integrate the system into existing furniture or into "standard 19" technical bays, for example. Storage density is 180 machines per flat square meter. There is also a remarkably compact standard rack (48 cm wide x 30 cm high x 18 cm deep) for 30 machines |
